

## Tell U.S. Attorney General Eric Holder to Prosecute & Investigation Bush Senior Officials!

Thus far the U.S. has failed to prosecute anyone up the chain of command for abuses that have occurred in the highest offices of the United States of America.

Sign this petition asking the Attorney General to expand the scope of the Justice Department's criminal investigation of the torture program to include senior Bush officials for the deliberately misleading Congress into a war with Iraq resulting over 4000 American deaths, tens of thousands troops wounded, over half a million Iraqi dead and trillions of dollars wasted on military contractors.
