Taxpayers in the U.S. will pay around \$527 billion for FY13 Dept. of Defense – including \$10 billion for NSA spying. Instead, to create real security we could have funded these human needs for one year!

ALL US households with renewable solar-photovoltaic electricity AND
50 million children's health care AND
5 million adults' health care AND
10 million Head Start slots AND
1 million elementary teachers AND
7 million university scholarships AND
1 million veterans benefits
