

March on Washington Saturday, October 2nd

Because The Choice Is Very Clear?

Spending for Wars & the Pentagon

OR

Spending on Things We Need!

The Pentagon will spend more than \$700 billion this year alone on war and preparing for war. If we cut just 25% from the Pentagon budget we could solve a lot of the problems we face at home.

- Ending the Iraq & Afghanistan Wars, would save \$145 billion this year. (So far we've spent over a Trillion Dollars on these two wars and a million U.S., Iraqi & Afghan lives have been lost!)
- Reducing active nuclear warheads would save an annual \$16 billion.
- Cutting the F-22 jet and other unneeded weapons systems - \$33 billion saved!
- Close half the 800 military bases outside the US. - Save another \$51 billion.

SPENDING
INSTEAD!

Hundreds of thousands from labor, civil rights, peace, environment, clergy and community organizations will descend on Washington to demand the change we were promised in 2008.

One Nation Working Together- Join Us In Washington, DC, Oct 2nd

Unity not hate and division • Jobs and affordable housing • Quality public education •
Healthcare for all as a basic human right • Renewable energy and green jobs to help
save our environment • Full and equal rights for LGBT • Defend immigrants from hateful
attacks • End the wars and cut Pentagon spending to solve urgent problems at home.
